# WIRELESS OXIMETER

White Label Wireless Pulse Oximeter - created to sense the changes in blood oxygen level, pulse rate, and perfusion index, based on Mircod IoT platform. Digitized changes are detected by sensors and automatically transferred using Bluetooth to mobile devices, while simultaneously being uploaded directly to Google, Amazon, Samsung, Azure or any private cloud storage solution. In addition to real-time alerts, the device keeps all data internally for up to 14 days.

## WE HELP YOU **SENSE CHANGES** IN REAL-TIME!

- Simple to use with enhanced connection and sensor application features for a better user experience.
- Easily removed and reapplied.
- Suited for patients with long fingernails.
- Tactile and audible feedback.

### APPLICATIONS

- Medical.
- Sport and Fitness.
- White Label.
- Internet of Things (IoT).
